PROVO, Utah— 06 Jun 2003— In a May 28th letter to SCO, Novell challenged SCO's claims to UNIX patent and copyright ownership and demanded that SCO substantiate its allegations that Linux infringes SCO's intellectual property rights. Amendment #2 to the 1995 SCO-Novell Asset Purchase Agreement was sent to Novell last night by SCO. To Novell's knowledge, this amendment is not present in Novell's files. The amendment appears to support SCO's claim that ownership of certain copyrights for UNIX did transfer to SCO in 1996. The amendment does not address ownership of patents, however, which clearly remain with Novell.

Novell reiterates its request to SCO to address the fundamental issue Novell raised in its May 28 letter: SCO's still unsubstantiated claims against the Linux community.

About Novell

Novell, Inc. (Nasdaq: NOVL) delivers Software for the Open Enterprise™. With more than 50,000 customers in 43 countries, Novell helps customers manage, simplify, secure and integrate their technology environments by leveraging best-of-breed, open standards-based software. With over 20 years of experience, more than 5,000 employees, 5,000 partners and support centers around the world, Novell helps customers gain control over their IT operating environment while reducing cost. More information about Novell can be found at <http://www.novell.com>.

Novell is a registered trademark; Nsure, exteNd and Nteprise are trademarks; and Ngage is a service mark of Novell, Inc. in the United States and other countries. All third-party trademarks are the property of their respective owners.
