Software Solutions: UnixWare 7.1.3

UnixWare 7.1.3 OpenServer Kernel Personality (OKP) Licenses

The OKP add-on supports the installation of a full OpenServer application environment on UnixWare 7.1.3 including emulation support for most Xenix applications in use with OpenServer today. The Lite version is a no-charge add-on which may be used to directly migrate an existing OpenServer 5.0.4 through OpenServer 5.0.7 system along with already installed applications and data files. The Full version provides a fresh OpenServer 5.0.7 image for installation on UnixWare 7.1.3. This option is a good choice for customers who want to move a limited number of applications and also move to the latest release of OpenServer on UnixWare.

| Product Name | Media | Product Model | Web Model | US\$ List |
|---|--------------|----------------|-----------------|-----------|
| OKP LITE - Migration Version Activation Key | Download | N/A | N/A | NO-FEE |
| OKP FULL - Includes fresh OSR5.0.7 Image | License Pack | LA417-UW00-1.0 | LA417-UW00W-1.0 | \$249 |

Promotional UnixWare 7.1.3 Trade-Ins

Concurrent with the release of OKP for UnixWare 7.1.3, SCO is introducing special promotional pricing for selected UnixWare 7.1.3 trade-in licenses from OpenServer 5.0.4 through 5.0.7 Enterprise systems. These prices will remain in effect through 31 December 2003.

| | | | | |
|--|--------------|------------------|-------------------|-------|
| Business (5-User, 1CPU) from OSR5.0.4 thru 5.0.7 Enterprise | License Pack | PX430-UW10-7.1.3 | PX430-UW10W-7.1.3 | \$549 |
| "Departmental (25-User, 2CPU) from >15User OSR5.0.4 thru 5.0.7 Enterprise" | License Pack | PX470-UW00-7.1.3 | PX470-UW00W-7.1.3 | \$999 |

UnixWare 7.1.3 Standard Upgrades and Trade-Ins

The following license are required to upgrade current UnixWare 7 systems to UnixWare 7.1.3. Upgrades may be applied directly to a running system. Trade-Ins are also available from older UnixWare systems and from OpenServer or SCO Unix systems. A trade-in will require a fresh install of UnixWare 7.1.3. Trade-ins may require a supporting proof of purchase for the original system. Contact your SCO Sales Office for requirements that apply in your region or for information about trading in from competitive products. Trade-ins may require a supporting proof of purchase for the original system. Contact your SCO Sales Office for requirements that apply in your region or for information about trading in from competitive products.

UnixWare 7.1.3 Upgrades

| | | | | |
|--|--------------|------------------|-------------------|--------|
| Update to UnixWare 7.1.3 from Open UNIX 8 (UnixWare 7.1.2) | CD-ROM | Use Media Kit | Use Media Kit | NO FEE |
| Upgrade to UnixWare 7.1.3 from UnixWare 7.1 and 7.1.1 | License Pack | LX400-UW00-7.1.3 | LX400-UW00W-7.1.3 | \$299 |

Users upgrading from Release 7.1.0 must first upgrade to Release 7.1.1 at no additional charge. This will require the use of a UnixWare 7.1.1 Media Kit.

| | | | | |
|--|--------------|------------------|-------------------|-------|
| Upgrade Bundle to UnixWare 7.1.3 from UnixWare 7.0.x | License Pack | LX400-UW10-7.1.3 | LX400-UW10W-7.1.3 | \$449 |
|--|--------------|------------------|-------------------|-------|

Includes 2 Licenses - an upgrade from Unixware 7.0.x to UnixWare 7.1.1 and an upgrade from UnixWare 7.1.1 to UnixWare 7.1.3.

Requires the use of the Unixware 7.1.1 Media Kit as well as the UnixWare 7.1.3 Media Kit. Users upgrading from Release 7.0.x must first upgrade to Release 7.1.1.

UnixWare 7.1.3 Trade-Ins

The following are for trade-ins from SCO OpenServer 5, UnixWare 2.x or 1.0, SCO® UNIX 4.2, SCO Open Server® 3.0, or SCO XENIX® operating systems as noted. In addition to the Edition License, customers may need to purchase additional User and Processor License Trade-ins to reach the number of users or CPUs to be supported under the upgraded configuration.

Clustering

ReliantHA is a clustering solution for enterprises requiring high levels of application and data availability. ReliantHA increases the overall availability of applications and critical data by connecting multiple servers together as nodes within a single high-availability fail-over cluster. Applications do not need to be aware of the operation of the cluster, and all nodes within the cluster may be used simultaneously for processing. Each node in the cluster needs to be licensed.

Reliant®HA 1.1.3

| | | | | |

UnixWare Office Mail Server Release 2.0

UnixWare Office Mail Server provides a reliable and easy to use email and collaboration service to small and medium businesses at an affordable price. SCOoffice Mail Server comes pre-configured to support mail, address book, and busy-free calendar features of popular mail clients. These powerful email and collaboration features help businesses increase productivity, improve customer relationships, and drive additional sources of revenue. SCO UnixWare Office Mail Server includes UnixWare 7.1.3 media along with a UnixWare 7.1.3 Base Edition License and a license for the SCOoffice Mail Connector for Microsoft Outlook.

UnixWare 7 Upgrades and Trade-Ins

UnixWare 7.1.1 Upgrades

| | | | | |
|-------------------------------------|--------------|----------------|---------------|-------|
| Upgrade to Release 7.1.1 from 7.0.x | License Pack | LX400-UW00-7.1 | Not available | \$299 |
|-------------------------------------|--------------|----------------|---------------|-------|

New and updated software is included on the Updates and Optional Services CD-ROMs. Use of the Upgrade Wizard is strongly recommended for an in-place upgrade to 7.1.1

| | | | | |
|------------------------------------|--------|---------------|---------------|----------|
| Update to Release 7.1.1 from 7.1.0 | CD-ROM | Use Media Kit | Use Media Kit | See Note |
|------------------------------------|--------|---------------|---------------|----------|

Note: Access to, or the purchase of, a Release 7.1.1 Media Kit is required. The right to upgrade from 7.1.0 to 7.1.1 is granted at no additional charge. Use the UnixWare 7 Updates CD-ROM from the Release 7.1.1 Media Kit to upgrade from 7.1.0 to 7.1.1. When upgrading to 7.1.1 from previous 7.0.0 or 7.0.1 systems, an Upgrade License (see above) is required first. After the 7.1.0 upgrade is complete, the in-place update to 7.1.1 can be added.

Current Customer Trade-Ins

Current Customers are those trading in from UnixWare 2.1, UnixWare 2.0 or SCO OpenServer Release 5.0.x systems. Purchase combinations of User License Trade-Ins for the number of users or CPUs required to be supported under the upgraded configuration.

| | | | | |
|--|--------------|--------------|---------------|---------|
| Base (1-User) from Release 5 Desktop systems | License Pack | LX420-UW00-7 | LX420-UW00W-7 | \$325 |
| Base (1-User) from 2.x Personal | License Pack | LX420-UW10-7 | LX420-UW10W-7 | \$325 |

SCO OpenServer 5 Upgrades and Trade-Ins

Current Customer Upgrades from Release 5.0.6

Upgrade: Upgrade licenses allow customers of SCO OpenServer 5.0.6 to upgrade to SCO OpenServer Release 5.0.7. All CPUs, additional users, Optional Services components, and Development Systems will remain valid when the installation of the new license is completed.

Trade-In: All versions of SCO OpenServer Releases 5.0.0 through 5.0.5, or any release of SCO OpenServer 3, SCO Open Desktop, SCO UNIX, or SCO XENIX require a Trade-In license to bring the system current with SCO OpenServer Release 5.0.7. User licenses, and CPU licenses must be traded in as well. These licenses are available under the heading Current/Previous Customer Trade-Ins. Customers with older variant 16-, 32-, 64-, 128-, and 512-User server licenses should contact their SCO representative to have these licenses converted to the appropriate combination of SCO OpenServer 5 User Licenses.

NOTE: Using an Upgrade or Trade-In license to SCO OpenServer Release 5.0.7, and selecting any of the Fresh installation options, you will need the current license for the system you are upgrading in addition to the Upgrade license. If you are using the Upgrade installation option, you only need the Upgrade license. See Late News at www.sco.com/support/docs/openserver for more information.

Inter-Edition Trade-In: Customers wishing to migrate from an SCO OpenServer Desktop or SCO OpenServer Host System to the SCO OpenServer Enterprise System must also purchase an Inter-Edition Trade-In license as well as an Upgrade or Trade-In license, to bring the system up to the current SCO OpenServer Release 5.0.7. These Trade-Ins result in a 5-User Enterprise System license. Any additional SCO OpenServer Release 5 User Licenses, CPU licenses applied to the original Host System will also apply to the Enterprise System. If trading-in from a pre-Release 5.0.7 system, the appropriate Current Customer Upgrade or Previous Customer Trade-In to Release 5.0.7 must first be purchased, for example from Host 5.0.4 to Host 5.0.7, and then to Enterprise 5.0.7.

|---|--------------|------------------|-------------------|-------|
| To SCO OpenServer 5.0.7 Enterprise from SCO OpenServer 5.0.7 Host System | License Pack | LX261-X241-5.0.7 | LX261-X241W-5.0.7 | \$799 |
| To SCO OpenServer 5.0.7 Enterprise from SCO OpenServer 5.0.7 Desktop System | License Pack | LX261-X221-5.0.7 | LX261-X221W-5.0.7 | \$699 |

Software Solutions : Authentication

SCO AUTHENTICATION

SCO Authentication provides a secure solution to reduce time managing usernames and passwords while preserving existing Microsoft infrastructure investments. SCO Authentication enables end-users to utilize the same password for Microsoft and UNIX. The result is less end-user frustration and time wasted because of password problems. Seamless passwords tighten security, improve end-user productivity, increase application utilization, and free IT staff for more valuable projects.

SCO Authentication for Microsoft Active Directory Release 2.1

| Product Name | Media | Product Model | Web Model | US\$ List |
|---|--------------|----------------|---------------|-----------|
| SCO UNIX Base Edition | | | | |
| <i>Base product for SCO Authentication supporting SCO UnixWare 7.1.2, 7.1.3 and SCO OpenServer 5.0.6 and 5.0.7. This edition includes no user licenses.</i> | | | | |
| Release 2.1 for SCO UNIX Full Kit | CD-ROM | SB822-UX09-2.1 | Not Available | \$499 |
| Solaris RISC Base Edition | | | | |
| <i>Base product for SCO Authentication supporting Sun Solaris versions 2.8 and 2.9. This edition includes no user licenses.</i> | | | | |
| Release 2.1 for Solaris Full Kit | CD-ROM | SB821-SL09-2.1 | Not Available | \$499 |
| Linux Base Edition | | | | |
| <i>Base product for SCO Authentication supporting current versions of Linux. This edition includes no user licenses.</i> | | | | |
| Release 2.1 for Linux Full Kit | CD-ROM | SB820-LX09-2.1 | Not Available | \$249 |
| SCO UNIX Base Edition with 25 User Licenses | | | | |
| <i>Base product for SCO Authentication supporting SCO UnixWare 7.1.2, 7.1.3 and SCO OpenServer 5.0.6 and 5.0.7. This edition includes 25 user licenses.</i> | | | | |
| Release 2.1 for SCO UNIX Full Kit | CD-ROM | SA822-UX09-2.1 | Not Available | \$999 |
| Solaris RISC Base Edition with 25 User Licenses | | | | |
| <i>Base product for SCO Authentication supporting Sun Solaris versions 2.8 and 2.9. This edition includes 25 user licenses.</i> | | | | |
| Release 2.1 for Solaris Full Kit | CD-ROM | SA821-SL09-2.1 | Not Available | \$999 |
| Linux Base Edition with 25 User Licenses | | | | |
| <i>Base product for SCO Authentication supporting current versions of Linux. This edition includes 25 user licenses.</i> | | | | |
| Release 2.1 for Linux Full Kit | CD-ROM | SA820-LX09-2.1 | Not Available | \$499 |
| Demo Kit – Not For Resale | | | | |
| Release 2.1 Demo Kit – Not For Resale | CD-ROM | DA820-XX09-2.1 | Not Available | \$50 |
| Additional User Bump Packs | | | | |
| 10 User Bump Pack | License Pack | LA820-0010-2.1 | Not Available | \$200 |
| 50 User Bump Pack | License Pack | LA820-0050-2.1 | Not Available | \$1,000 |
| 100 User Bump Pack | License Pack | LA820-0100-2.1 | Not Available | \$2,000 |
| 500 User Bump Pack | License Pack | LA820-0500-2.1 | Not Available | \$10,000 |
| 1000 User Bump Pack | License Pack | LA820-1000-2.1 | Not Available | \$20,000 |

Software Solutions : Development Products

DEVELOPMENT PRODUCTS
